Project Update #3

Water Main Installation

Crews have started installing new water main and completed the installation of one fire hydrant. The new water main will run North the entire length of the project.

Storm Sewer Installation

This week the contractor started the installation process for two catch basins and laid one new run of storm sewer pipe. This is the first of many upgrades to the current storm sewer infrastructure.

Note: There will be no major changes to Traffic Control in the upcoming week.

Thank you for your patience and cooperation as we continue to **Rebuild Tipton**
