### Project Update #21

#### Changes to Traffic Control

Thursday April 11<sup>th</sup>, the contractor will be in at 9:00 AM to start adjusting the pavement markings in the road to get set up for our first traffic shift. Two-way traffic will be shifted to the East side of Cedar Street from 3<sup>rd</sup> to 7<sup>th</sup> Street. The contractor will be placing barrier rail between 6<sup>th</sup> and 7<sup>th</sup> for the first part portion of the new water main installation. The intersection on the West side of 6<sup>th</sup> Street will be closed to through traffic during this time. There will be **NO PARKING** on the East side of Cedar Street in areas where we have traffic shifted. Street parking will be allowed on the West side as construction operations allow.

NOTE: Please watch for trucks entering and leaving work zones once the barrier rail is installed. It can be a little hectic at the beginning of a new phase, and we want to try to keep everyone as safe as possible.

Thank you for your patience and cooperation as we continue to **Rebuild Tipton**
