Project Update #35

Water Main Shut Down

As part of the changes made to complete the storm sewer on Meridian Street, there will have to be some modifications done to the existing water main in that intersection. This will require a significant water main shut-down. The contractor is anticipating completing this work on **Tuesday, October 29<sup>th</sup>**. The shut down is estimated to be active from **8 AM to 1 PM**. Below, circled in **GREEN**, is the estimated footprint of who will be affected by the shut-down. The contractor is going to hand out flyers to residents and businesses that will be in the footprint. Please look for that for more information.

**NOTE: This footprint is our best estimation of who will be affected. Please contact me directly with any concerns during or leading up the shut-down.**

Thank you for your patience and cooperation as we continue to **Rebuild Tipton**
